

I am writing to let you know how important K-LOVE is to me and my community. When my husband was dying of cancer, K-LOVE helped me get through the day, by their uplifting people and music. I knew I had a wonderful support system in them. There are so many people impacted by this blessing! We do not need another country, pop or otherwise station in our area! My grandchildren know the words to christian songs instead of rap music lyrics. Please consider the impact K-LOVE has on this country in times of trouble and sadness.
